l'azienda

Il ciclo produttivo è interamente svolto in Azienda

The production cycle is entirely performed in the plant

■ Il ciclo di produzione viene eseguito interamente nello stabilimento.
■ Le materie prime vengono selezionate accuratamente. Viene dato un ampio risalto all'ecologia con un impianto potente di raccolta e depurazione dei fumi e dei liquidi usati nelle lavorazioni.

■ The production cycle is entirely performed in the plant.
■ The raw materials are carefully selected. We protect the environment with a powerful system to collect and purify fumes and the liquids used in processing.

■ Le cycle de production est effectué entièrement dans l'établissement.
■ Les matières premières sont sélectionnées soigneusement. L'écologie est mise en relief amplement grâce à une installation puissante de réception et de dépuration des fumées et des liquides utilisés lors des usinages.

■ Der gesamte Produktionszyklus erfolgt im eigenen Werk.
■ Alle Rohstoffe werden sorgfältig ausgewählt. Der Umweltschutz ist vorrangig dank der leistungsstarken Abgas-und Abwasseraufbereitungsanlage zur Beseitigung der bei der Bearbeitung anfallenden Flüssigkeiten.

■ El ciclo de producción se realiza completamente en el establecimiento.
■ Las materias primas son seleccionadas cuidadosamente. Se da un amplio resalte a la ecología con una instalación poderosa para la recolección y depuración del humo y de los líquidos usados en las elaboraciones.

Utilizziamo solo la migliore qualità di ottone

Le superfici vengono ricoperte di Nickel e di Cromo con spessori fino a 20 micron

Surfaces are coated with layers of nickel and chrome up to 20 microns thickness

■ La cromatura è il punto di forza del ciclo di produzione e la qualità della finitura viene immediatamente percepita dal cliente finale.
Le superfici dei nostri articoli vengono ricoperte di Nickel e di Cromo con spessori fino a 20 micron, ottemperando a tutti i test più severi di durata nel tempo.

■ The chrome-plating is the strong point of the production cycle and the quality of the chrome surface is the first thing the purchaser notices. Surfaces are coated with layers of nickel and chrome up to 20 microns thick and must pass the most rigid tests.

■ Le chromage est le point de force du cycle de production et la qualité du chromage est la première à être perçue par l'acquéreur.
Les surfaces sont recouvertes de nickel et de chrome sur des épaisseurs qui arrivent jusqu'à 20 microns et passent tous les tests les plus sévères.

■ Das Verchromen ist die Stärke des Produktionszyklus, da die Verchromung die erste Eigenschaft ist, die dem Kunden ins Auge fällt. Die Oberflächen werden mit Nickel und Chrom mit einer Stärke von bis zu 20 Mikron beschichtet und bestehen die strengsten Tests.

■ El cromado es el punto de mayor importancia del ciclo de producción y la calidad
del cromado es la primera que percibe el comprador.
Las superficies son cubiertas con níquel y cromo con espesores que llegan hasta a 20 micrón y pasan los tests más rigurosos.

La cromatura è il punto di forza del ciclo di produzione

Chrome-plating: our strength in the production cycle

Controllati uno ad uno prima dell'imballaggio

Tested one by one before shipment

■ Ogni singolo articolo viene sottoposto a severe prove di tenuta. La macchina di prova è dotata di sensori estremamente efficaci che segnalano ogni minima eventuale perdita, così che il pezzo non conforme non prosegua nel suo percorso di imballaggio.

■ Each piece is subjected to a severe seal test. The machine is equipped with extremely sensitive sensors that detect any leaks before the piece continues on towards packaging.

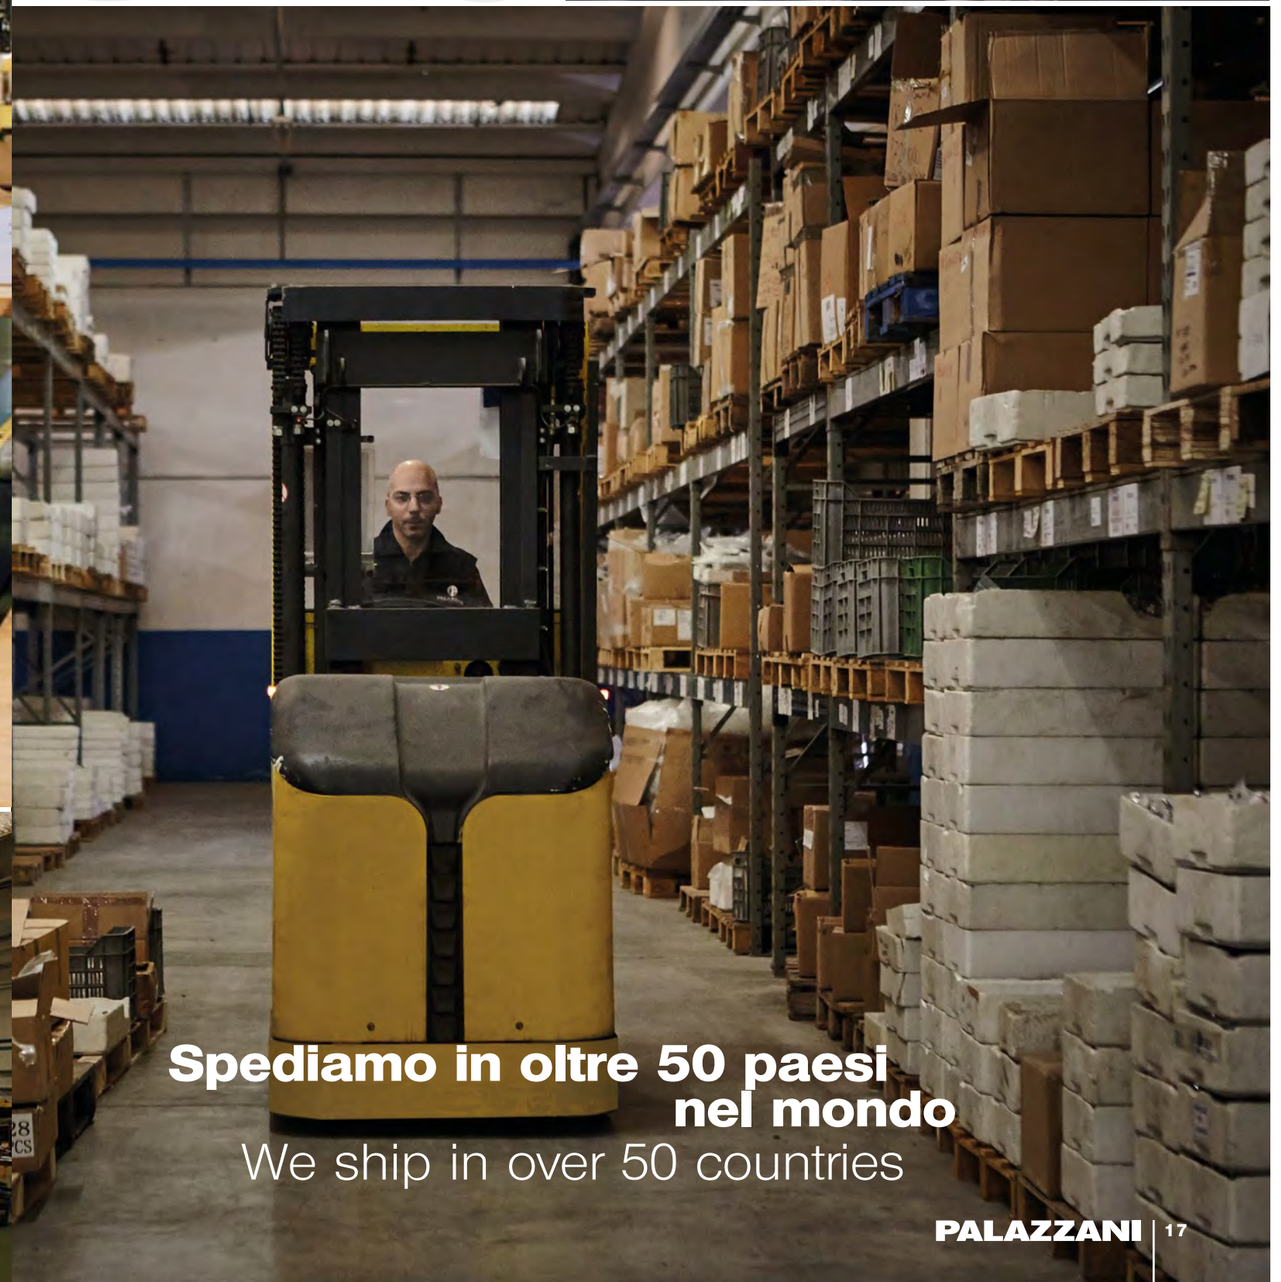

■ Chacune des pièces est soumise à un essai de tenue étanche sévère. La machine équipée de senseurs extrêmement efficaces signale une perte éventuelle avant que la pièce ne poursuive son parcours vers l'emballage.

■ Jeder Artikel wird strengsten Dichtigkeitsprüfungen unterzogen. Die mit hoch empfindlichen Sensoren ausgestattete Maschine meldet alle eventuellen Undichtigkeiten, bevor das Produkt zur Verpackungslinie gelangt.

■ Cada una de las piezas es sometida a una rigurosa prueba de hermeticidad. La máquina dotada de sensores extremadamente eficaces señala una eventual pérdida antes de que le pieza continúe con su recorrido hacia el embalaje.

Spediamo in oltre 50 paesi nel mondo

LIMITI DI IMPIEGO RACCOMANDATI DALLA NORMATIVA UNI EN 1111
PER IL BUON FUNZIONAMENTO del RUBINETTO TERMOSTATICO

- Pressione: min 1 BAR / max 5 BAR
- Temperatura acqua calda: min 55°C, max 65°C.
- Temperatura acqua fredda: minore uguale 25°C.
- I miscelatori termostatici possono essere utilizzati con accumulatori di acqua calda a pressione o con scaldabagni istantanei, ma devono garantire acqua calda a temperatura costante. (SOLUZIONE NON OTTIMALE)
- In presenza di acque particolarmente calcaree è da prevedere l'installazione di un addolcitore all'ingresso dell'impianto.
- È necessario eseguire (soprattutto nel caso di nuove installazioni) uno spurgo preventivo dell'impianto molto accurato per evitare danni sia alla rubinetteria sia agli apparecchi tecnologici installati
- Un filtro centralizzato protegge l'impianto dalle impurità contenute nell'acqua
- In caso di pressioni di alimentazione superiori a 5 BAR si raccomanda d'installare un riduttore di pressione per il buon funzionamento degli apparecchi.
- La differenza massima di pressione in arrivo (Calda-Fredda) 1.5 BAR
- la temperatura dell'acqua calda in ingresso deve essere almeno di 10 superiore alla massima temperatura desiderata in uscita

I miscelatori termostatici

Thermostatic mixers

Il miscelatore termostatico

- Palazzani vi invita in un mondo fatto di comfort, sicurezza e consumo consapevole e corretto di acqua ed energia.
- Installate normalmente il condizionatore d'acqua **acquaclima®** collegandolo come un normale miscelatore all'acqua calda e fredda. Otterrete costantemente un flusso di acqua miscelata alla temperatura che avete impostato.
- **acquaclima®** ha un bottone di fermo a 38°C in modo da evitare le temperature elevate se non espressamente volute, ed un sistema interno anti-scottatura in caso di rottura dell'alimentazione di acqua fredda.

Thermostatic mixer

- Palazzani invites you to a world made of comfort, safety, aware and correct consumption of water and energy.
- Install the **acquaclima®** water conditioner normally by connecting it as a normal mixer to hot and cold water supply.
You will constantly obtain a flow of water mixed at the temperature you have set.
- **acquaclima®** has a stop button at 38°C so as to avoid high temperatures if not expressly desired and an internal anti-scalding system in the event the cold water supply breaks.

Mitigeur thermostatique

- Palazzani vous invite dans un monde fait de confort, de sécurité et d'une consommation consciente et correcte d'eau et d'énergie.
- Installez normalement le conditionneur d'eau **acquaclima®** en le branchant comme un mélangeur normal d'eau chaude et froide. Vous obtiendrez toujours un débit d'eau mélangée à la température que vous avez programmée.
- **acquaclima®** est doté d'un bouton d'arrêt à 38°C de façon à éviter les températures élevées à moins de les demander expressément et d'un système interne anti-brûlure en cas de panne dans l'alimentation en eau froide.

easy clean

■ Il sistema **easy-clean** vi permette di rimuovere con facilità il calcare da docce e doccette, semplicemente strofinando con il dito le tettarelle di silicone. (megio durante l'erogazione d'acqua)

■ **easy-clean** system allows you to remove limescale from head showers and hand showers. When pressing with your finger on the silicone spray, the silicone spray channels are easily cleaned. (better with water on)

bordo vasca

coiffeur

brevettato - patented

drop stop

■ La rubinetteria soprabordo vasca o per parrucchiere, con doccia estraibile, è dotata dello speciale dispositivo **drop-stop®** che impedisce all'acqua di penetrare attraverso il foro di passaggio del flessibile.

■ The mixers for deck mounting on bath-tub or haidresser, when provided with a pull-out shower, are equipped with the special **drop-stop®** device that prevents water to penetrate through the flexible housing orifice.

■ La robinetterie pour montage sur gorge de coiffeur ou baignoire, lors qu'elle est pourvue d'une douchette amovible, elle est dotée du spécial dispositif **drop-stop®** afin d'éviter que des gouttes d'eau pénètrent à travers du passage du flexible.

■ Die Armaturen für Randmontage bei Friseur und Badewanne, wenn sie mit herausziehbarer Brause sind, werden mit einem speziellen **drop-stop®** Gerät geliefert, welches vermeidet, dass Wassertropfen durch den Brausehalter gelangen

■ Los grifos de sobreponer para bañera o peluquero, con ducha extraible, están dotados de un especial dispositivo **drop-stop®** que impide al agua de pasar a travez del orificio del pasaje del flexible.

no hot

■ Per evitare scottature che potrebbero generare reazioni pericolose, Palazzani ha previsto i corpi dei miscelatori per doccia provvisti di sistema **no-hot®** che mantiene il rubinetto a temperatura mite, anche durante l'uso prolungato di acqua calda.

■ In order to avoid body scalding that can be dangerous in the bathroom, Palazzani has designed the bodies of shower mixers with the special **no-hot®** system that maintain the tap body at a mild temperature also during the use of hot water.

■ Afin d'éviter toute brûlures qui pourraient engendrer des réactions dangereuses, Palazzani a conçu les mitigeurs de douche avec le système **no-hot®** qui maintient le corps du robinet à température douce même durant un usage prolongé d'eau chaude.

■ Um eventuelle Verbrennungen zu vermeiden, welche zu heisse Armaturenkörper im Badezimmer erzeugen können, hat Palazzani die Körper der Brausebatterien einiger Armaturenserien mit einem speziellen **no-hot®** System produziert, welches die Körper der Armaturen immer, auch während einer längeren Heisswasser – Entnahme, auf milder Temperatur halten.

■ Para evitar quemaduras que podrian causar reacciones peligrosas, Palazzani ha diseñado el cuerpo de los mezcladores para ducha con el especial sistema **no-hot®** que mantiene el grifo a una temperatura fria, aún durante un uso prolongado de agua caliente.

[acqua green]

certificazioni

■ La rubinetteria PALAZZANI viene progettata per resistere nel tempo e per questo motivo ogni singolo prodotto deve superare severe prove e impegnativi collaudi interni nei nostri laboratori.
Inoltre i rubinetti Palazzani sono conformi a tutte le normative dei più autorevoli laboratori internazionali. Alcuni di essi hanno conferito ai prodotti Palazzani alcuni tra i più importanti marchi di qualità. Questo garantisce una sicura qualità, affidabilità e durata del prodotto.

■ The faucet is designed and industrialized in PALAZZANI technical office to endure over time and that is why every product must pass stringent internal testing and challenging tests in our laboratories.

■ Con il kit **acquagreen®, che trovate nella sezione ricambi,** potete trasformare il vostro rubinetto Palazzani in un rubinetto a risparmio d'acqua, secondo le più stringenti normative ecologiche richieste a livello internazionale.

■ With the **acquagreen®** kit, that you can find in the spare parts section, you can turn your Palazzani faucet into a saving-water faucet, according to the most stringent ecological national and international requirements.

■ Avec le kit **acquagreen®**, qui vous trouvez dans les pièces de rechange, vous pouvez transformer votre robinet Palazzani dans un robinet économies d'eau, selon les exigences écologiques les plus strictes au niveau national et international.

■ Mit dem Kit **acquagreen®**, in den Teilen gefunden, können Sie Ihren Wasserhahn in einen Wasserhahn Palazzani Einsparungen wiederum Wasser, nach den strengsten ökologischen Anforderungen auf nationaler und internationaler.

■ Con el kit **acquagreen®**, que se encuentra en la sección de piezas, usted puede transformar su grifo Palazzani en un grifo con ahorro de agua, de acuerdo a los requisitos ecológicos más estrictos a nivel nacional e internacional.

Dichiarazione di Conformità

■ Tutti i nostri rubinetti con valvola sanitaria e miscelatori con dischi in ceramica sono conformi alla norma UNI EN 817
■ Tutti i nostri rubinetti termostatici sono conformi alla norma UNI EN 1111
■ Tutti i nostri rubinetti elettronici sono conformi alla norma UNI EN 15091

Ottone
■ Tutti i nostri rubinetti vengono realizzati in ottone conforme alle normative
Ottone CW 614N – UNI EN 12164
Ottone CW 617N – UNI EN 12165

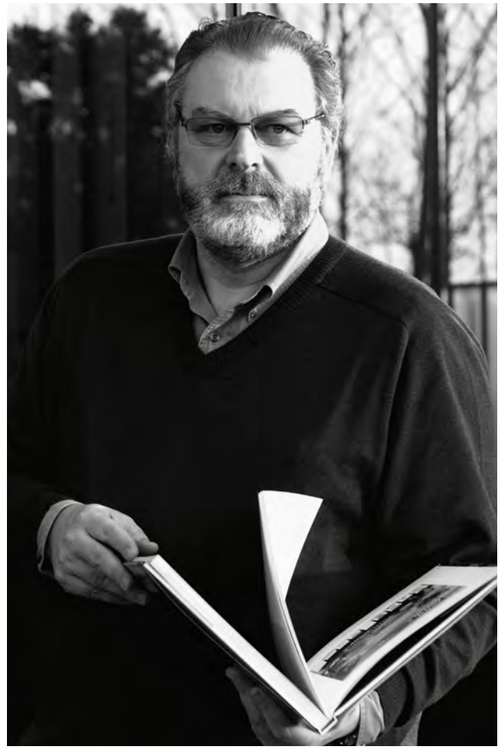

Cromatura
■ La nostra cromatura è conforme alla norma UNI EN 248.
Superando il test di 200 ore in ambiente salino
La cromatura PALAZZANI prevede un rivestimento di Nickel e di Cromo con spessori che raggiungono i 20 micron.

Declaration of Conformity

■ All Palazzani's taps with valve and mixers with the cartridge in ceramic disc are according to UNI EN 817
■ All Palazzani's taps with thermostatic valves are according to UNI EN 1111
■ All Palazzani's electronic taps are according to UNI EN 15091

Brass Declaration
■ All Palzzani's taps are made with the brass conform to :
Brass CW 614N-UNI EN 12164 (turnig brass)
Brass CW 617N-UNI EN 12165 (molding brass)
Brass CuZn 37 Pb – UNI EN 753s (casting brass)

Chrome-plating
■ The Palazzani's Chrome plating is according to UNI EN 248.
The chrome-plating is designed to withstand a test of more than 200 hours in saline ambient.
The taps surfaces are coated with layers of nickel and chrome up to 20 microns thickness.

Antonio Bullo

■ Antonio Bullo, oltre che scultore di successo e libero docente di Disegno Industriale presso l'I.S.I.A. di Faenza, è un designer italiano la cui attività è in buona parte dedicata agli oggetti per arredare l'ambiente bagno.
Ha ottenuto importanti successi progettando ceramiche e rubinetterie, è detentore di premi importanti, ma soprattutto ha da sempre riscosso il consenso dei consumatori che apprezzano l'innovazione, la praticità d'uso e la purezza di linee dai tratti inconfondibili.
In questo catalogo sono presentati i rubinetti disegnati da Antonio Bullo per Palazzani.

■ Antonio Bullo is not only a successful sculptor and teacher of Industrial Design of the I.S.I.A. of Faenza, Italy, but is also an Italian designer, whose large part of activity is dedicated to design the bathroom ambience.
He has achieved important success designing ceramics, taps and faucets and has obtained important awards, but above all he has always earned consumer appreciation for the innovation, useful practicality and purity of his work's unmistakable lines.
In this catalogue you'll find the products designed by Antonio Bullo for Palazzani.

■ Antonio Bullo, sculpteur sculpteur de succès et professeur de Dessin Industriel à l'I.S.I.A. de Faenza, est aussi un designer italien dont l'activité est en majeure partie consacrée aux objets d'ameublement de salle de bain. Il a obtenu d'importants succès ayant projeté des céramiques et des robinetteries, il a reçu des prix importants, mais il a surtout, depuis toujours, suscité l'approbation des consommateurs qui apprécient l'innovation, la facilité d'utilisation, et la pureté des lignes avec des traits uniques.
Dans ce catalogue sont présentés les produits dessinés par Antonio Bullo pour Palazzani.

■ Antonio Bullo ist nicht nur ein erfolgreicher Bildhauer und freier Dozent an der Hochschule für Industriedesign (I.S.I.A.) in Faenza, sondern auch ein italienischer Designer, der einen Großteil seiner beruflichen Tätigkeit den Einrichtungsobjekten für das Bad-Ambiente widmet.
Er hat beachtliche Erfolge im Design von Keramiken und Armaturen erzielt, ist Träger wichtiger Preise, vor allem aber findet er seit jeher Anklang bei den Verbrauchern, die die Innovation, die einfache Handhabung und die Reinheit seiner unverwechselbaren Linien schätzen.
In diesem Katalog werden die Produkte vorgestellt, die Antonio Bullo für Palazzani designt hat.

■ Antonio Bullo además de ser un escultor de fama y docente de Dibujo Industrial del I.S.I.A. (Instituto Superior de Industria Artística) de Faenza (Italia), es un diseñador italiano cuya actividad se centra en buena parte a objetos para la decoración del baño.
Ha obtenido una importante fama diseñando cerámicas y griferías, y se le han otorgado premios importantes, pero sobretodo desde siempre ha recibido el consenso de aquellos consumidores que aprecian la innovación, la practicidad de uso y la pureza de líneas con rasgos inconfundibles.
En este catálogo hay los productos diseñados por Antonio Bullo para Palazzani.

■ Andrea Zani si laurea in design industriale presso Machina Lonati Fashion and Design Institute nel 2005.
La sua vocazione di industrial designer lo porta alla continua ricerca di realtà dove artigianalità dei prodotti e ricerca del nuovo si fondono. Ciò gli permette di realizzare oggetti dal design innovativo e d'impatto che si incastrano però perfettamente con le quotidiane esigenze del mercato.
Il suo catalogo si compone di oggetti essenziali, dal rigore formale ma senza tempo.
La sua collaborazione con Palazzani si sviluppa nel restyling di alcune serie di rubinetti.

■ Andrea Zani graduates in industrial design at Machina Lonati Fashion and Design Institute in 2005.
His vocation as an industrial designer takes him to a constant quest for realities where craftsmanship of products and search for new lines blend. This allows him to create objects with innovative design that perfectly fit with the daily demands of the market.
His catalog consists of essentials objects with a rigorous shape but timeless.
His collaboration with Palazzani concerns the restyling of some series of taps.

■ Andrea Zani, concepteur industriel de formation fut diplômé en design industriel au Machina Lonati Mode et Design Institute en 2005.
En tant que designer industriel, il a un esprit innovateur, vif et créatif, il propose des produits fonctionnels aux lignes épurées et intemporelles où le style et le design s'incorporent parfaitement avec les exigences du marché d'aujourd'hui.
C'est pourquoi, Palazzani en étroite collaboration avec Andrea Zani renouvellera la conception et l'esthétique de plusieurs séries de robinets afin afin de les rendre plus actuelles et au goût du jour.

■ Andrea Zani ist Absolventen in Industriedesign vom Machina Lonati Fashion und Design-Institut im Jahr 2005.
Seine Berufung als Industriedesigner führt ihn zu einer ständigen Suche nach Wirklichkeiten, wo Handwerkskunst der Produkte und die Suche nach neuen Linien verschmelzen. Dies erlaubt ihm, Objekte mit innovativen Design, das perfekt mit den täglichen Anforderungen des Marktes anpassen zu erstellen.
Sein Katalog besteht aus Wesentliche Objekte mit einer strengen Form, aber zeitlos. Seine Zusammenarbeit mit Palazzani betrifft die Neugestaltung einiger Reihe von Palazzaniprodukten.

■ Andrea Zani se graduó en diseño industrial en Machina Lonati Fashion and Design Institute en 2005.
Su vocación como diseñador industrial lo lleva siempre en busca de realidades donde la artesanía de los productos y la búsqueda de lo nuevo se funden.
Esto le permite crear objetos con diseño innovador y de impacto que se ajustan perfectamente con las demandas cotidianas del mercado.
Su catálogo se compone de objetos esenciales, del rigor formal pero sin tiempo.
Su colaboración con Palazzani se desarrolla en el restyling de algunas series de grifos.

elettronico

normative

Conformità

I nostri rubinetti meccanici a chiusura automatica temporizzata sono conformi alla norma UNI EN 816 “Rubinetteria sanitaria - Rubinetteria a chiusura automatica PN10”; i nostri rubinetti elettronici sono conformi alla norma EN15091 “Sanitary tapware - Electronic opening and closing sanitary tapware”.

Compatibilità Elettromagnetica CE

Si tratta di un’auto-certificazione nella quale il produttore deve garantire egli stesso la conformità dei suoi prodotti, e deve essere in grado di presentare su domanda delle autorità la prova di quello che certifica.

Tutti i prodotti elettrici o elettronici marchiati CE, attestano che sono conformi alle seguenti norme:

Compatibilità elettromagnetica: Direttiva 2004/108/CE

Direttiva Bassa Tensione: Direttiva 2006/95/CE

Inoltre:

- EN 50 082-1 Compatibilità elettromagnetica - Norma generica d’immunità - Ambiente domestico, commerciale e industriale leggero.
- EN 50 082-2 Compatibilità elettromagnetica - Norma generica d’immunità - Ambiente industriale, del 1998 e le emissioni di classe B EN 50, del 2001.
- EN 60947-5-1 Accessori elettrici a bassa tensione. Apparecchi ed elementi di commutazione per il controllo dei circuiti. Apparecchi elettromeccanici per circuiti di comando, giugno 2000 e IT 60947-5-1/A12, giugno 2000
- EN 60950-1 Sicurezza degli apparecchi di trasformazione, ivi comprese attrezzature elettriche per ufficio, aprile 2002. La norma descrive in dettaglio le prescrizioni di sicurezza previste per ridurre i rischi d’incendio, di scossa elettrica e lesioni per l’operatore o per i non addetti che possono venire a contatto con le apparecchiature. La norma ha lo scopo di ridurre tali rischi.

compliance

Compliance

Our time controlled, automatically shutting, mechanical tapwares comply with the UNI EN 816 law, “Sanitary tapware - Automatically shutting tapware PN10”, while our electronic tapwares comply with the EN15091 law, “Sanitary tapware - Electronic opening and closing sanitary tapware”.

Electromagnetic Compatibility CE

This is a self-certification in the measure of which the producer itself must guarantee the compliance of its products, and must be capable of presenting on demand of the authorities the proof of that which is certified.

All electric or electronic products marked CE, attest that they comply with the following legislation:

Electronic compatibility: CE Directive 2004/108/CE

Low Tension CE Directive 2006/95/CE

Furthermore:

- EN 50 082-1 Electromagnetic compatibility - Generic law of immunity - Domestic, commercial and light industry environment.
- EN 50 082-2 Electromagnetic compatibility - Generic law of immunity - Industrial environment, since 1998 and class B emissions EN 50, of2001.
- EN 60947-5-1 Low power electric accessories. Appliances and electronic switching elements for circuit control. Electronic appliances for control circuits, June 2000 and IT 60947-5-1/A12, June 2000
- EN 60950-1 Safety of transformation appliances, including electric office equipment, April 2002. The law describes in detail the safety prescriptions to reduce risk of fire, electric shock and body harm to operators or unauthorised personnel who can come into contact with the appliance. The of the law is to reduce such risks.

10 Cromo - Chrome
Chromé - Chrom

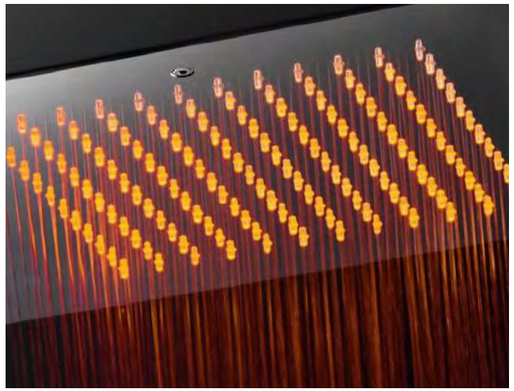

chromo therapy

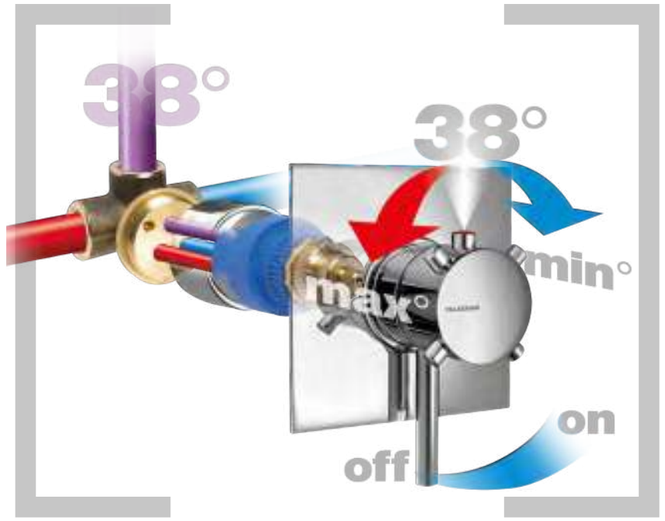

■ Linea di soffioni con luci led RGB con effetto cromoterapia.

■ Shower heads with RGB led light with chromotherapy effects.

■ il condizionatore d'acqua **acquaclima®** consente un flusso costante di acqua miscelata alla temperatura che avete impostato.
acquaclima® ha un bottone di fermo a 38°C in modo da evitare le temperature elevate se non espressamente volute, e un sistema interno anti-scottatura in caso di rottura dell'alimentazione di acqua fredda.
acquaclima®: comfort, risparmio idrico, risparmio energetico, sicurezza, facilità d'installazione e manutenzione

■ with **acquaclima®** water conditioner you will constantly obtain a flow of water mixed at the temperature you have set.
acquaclima® has a stop button at 38°C to avoid high temperatures if not expressly desired and an internal anti-scalding system in the event the cold water supply breaks.
acquaclima®: comfort, water saving, energy saving, safety, easy installation and maintenance

acqua clima®

easy clean

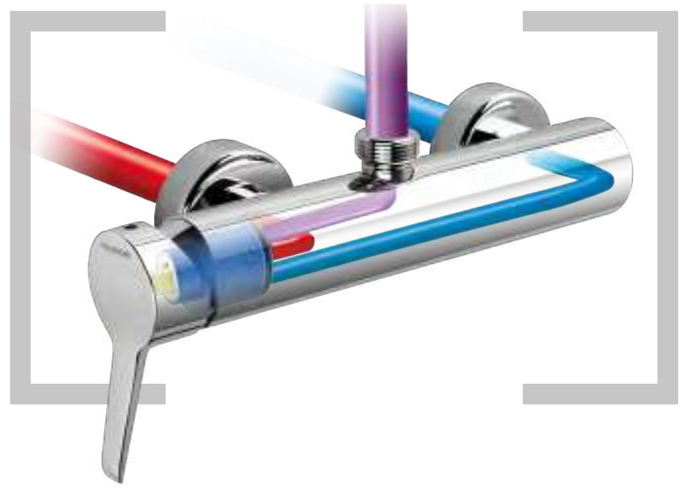

■ Il sistema **easy-clean** consente di rimuovere con facilità il calcare grazie agli ugelli flessibili in silicone.

■ **easy-clean** system allows you to easily remove limescale from shower heads and shower hands thanks to flexible silicone jets.

■ Per evitare scottature che potrebbero generare reazioni pericolose, Palazzani ha previsto i corpi dei miscelatori per doccia provvisti di sistema **no-hot®** che mantiene il rubinetto a temperatura mite, anche durante l'uso prolungato di acqua calda.

■ In order to avoid body scalding that can be dangerous in the bathroom, Palazzani has designed the bodies of shower mixers with the special **no-hot®** system that maintain the tap body at a mild temperature also during the use of hot water.

PALAZZANI

PALAZZANI

CONDIZIONI GENERALI DI VENDITA

Le presenti condizioni generali disciplinano tutti gli attuali e futuri contratti fra le parti, salvo eventuali deroghe specificatamente concordate per iscritto. Eventuali condizioni generali del compratore non troveranno applicazione nei rapporti futuri fra le parti se non espressamente accettate per iscritto dalla Palazzani.Eu srl.

Contratto
L'invio da parte del compratore di un ordine al venditore comporta l'applicazione al contratto di vendita delle presenti condizioni generali. Il venditore si riserva il diritto di accettare o rifiutare l'ordine ricevuto. Le offerte fatte da agenti, rappresentanti ed intermediari nominati dal venditore non sono per lui impegnative fino a quando non siano confermate dal venditore stesso.

Prezzi
Ai prezzi indicati nel presente listino deve essere applicata l'I.V.A. secondo l'aliquota in vigore al momento della fatturazione. Il venditore si riserva di modificare i prezzi, o variare il listino prezzi senza alcun preavviso.

Modelli
Il venditore si riserva la facoltà di apportare senza nessun preavviso, modifiche ai modelli che riterrà opportune.

Resa della Merce
Salvo contrariamente pattuito , la fornitura dei prodotti si intende Franco Fabbrica del venditore: trasporto ed assicurazione sono pertanto a carico del compratore e ciò anche quando sia convenuto che la spedizione o parte di essa venga curata dal venditore, nel qual caso quest'ultimo agirà come mandatario del compratore, essendo inteso che il trasporto verrà effettuato a rischio del compratore.
I rischi relativi alla fornitura passano al compratore al momento in cui i prodotti lasciano lo stabilimento del venditore.

Termini di Consegna
I termini di consegna si intendono approssimativi a favore del venditore e comunque con un congruo margine di tolleranza. E' esclusa qualsiasi responsabilità del venditore per danni derivanti da anticipata, ritardata o mancata consegna, totale o parziale.
Il compratore è sempre tenuto a prendere in consegna i prodotti, anche in caso di consegne parziali e quando i prodotti vengano consegnati prima o successivamente alla data di consegna stabilita. Il termine di consegna verrà prorogato di un periodo pari a quello della durata dell'impedimento al verificarsi di cause di forza maggiore.
In nessun caso, a causa del verificarsi di tali circostanze, il compratore potrà esigere compensi o indennizzi di qualsiasi natura.

Garanzia
Il venditore garantisce la conformità dei prodotti forniti. Con il termine di conformità dei prodotti si intende che essi corrispondono per qualità, quantità e tipo a quanto stabilito nel contratto e che sono esenti da vizi che potrebbero renderli non idonei all'uso cui sono destinati. La garanzia per vizi è limitata ai soli difetti dei prodotti conseguenti a difetti di progettazione, di materiale o di costruzione riconducibili al venditore e non si applica nel caso in cui il compratore non provi di aver effettuato una corretta conservazione dei prodotti e di non averli modificati senza il consenso del venditore.
Il venditore non risponde dei difetti di conformità dei prodotti dovuti all'usura normale di quelle parti che, per loro natura, sono soggette a usura rapida e/o continua. La garanzia decade qualora i prodotti vengano sottoposti a pressioni superiori a quelle ammesse dalle norme europee, 5K/cm2 e quando non vengano rispettate le raccomandazioni del produttore. La garanzia non copre i danni causati da acqua contente corpi estranei.

Raccomandazioni del produttore
Si raccomanda l'installazione di un filtro centralizzato e la sua corretta manutenzione per non esporre la rubinetteria alle impurità dell'acqua. Si raccomanda l'installazione di riduttori di pressione nei casi in cui la pressione di esercizio superi i 5kg/cm2. Per i miscelatori termostatici si raccomanda, per un corretto utilizzo del rubinetto, una temperatura di ingresso dell'acqua calda (65C° + - 5) come da norme Uni 1111.
Per la pulizia delle superfici cromate, si raccomanda di non utilizzare acidi corrosivi soprattutto se contenenti acido cloridrico. Le finiture speciali devono essere pulite solo con acqua ed un panno morbido.

Reclami
Il compratore è tenuto a verificare la conformità dei prodotti e l'assenza di vizi. I reclami relativi a non conformità dei prodotti forniti dovranno essere effettuati, a pena di decadenza, entro e non oltre quindici giorni dal ricevimento della merce a destino. I vizi, difetti o non conformità occulti devono essere denunciati immediatamente alla loro scoperta e comunque, a pena di decadenza, entro e non oltre sei mesi dalla data di consegna. Tutti i reclami devono essere effettuati mediante lettera raccomandata indirizzata al venditore e devono indicare dettagliatamente i vizi e le non conformità contestate con prove documentali. La garanzia ha una durata di sei mesi.

Rimedi
In caso di Prodotti non conformi, e dopo aver ricevuto un rapporto dettagliato dal compratore, il venditore potrà, a sua insindacabile scelta:
a) fornire gratuitamente Franco Fabbrica al compratore prodotti dello stesso genere e quantità di quelli risultanti difettosi o non conformi a quanto pattuito, oppure le sole parti difettose dello stesso dopo averne ottenuto la resa per la verifica. La eventuale sostituzione effettuata prontamente dal venditore non può essere ritenuta un implicito riconoscimento dei vizi contestati: detto riconoscimento dovrà essere sempre esplicito e conseguente al controllo del venditore sui prodotti contestati. Qualora il venditore, in sede di verifica, non riconosca viziati i prodotti, provvederà alla fatturazione di quelli inviati in sostituzione; oppure
b) emettere una nota di accredito a favore del compratore per un importo corrispondente al valore dei prodotti difettosi.
In entrambi i casi il venditore ha diritto alla restituzione dei prodotti difettosi, che diventano di sua proprietà.

Limitazione di responsabilità del venditore
Salvo dolo o colpa grave del venditore l'eventuale risarcimento di qualsiasi danno al compratore non potrà comunque superare il prezzo di fattura dei prodotti contestati..

Pagamento
I pagamenti ed ogni altra somma dovuta a qualsiasi titolo al venditore si intendono netti al suo domicilio. Qualsiasi ritardo o irregolarità nel pagamento dà al venditore il diritto di sospendere le forniture o di risolvere contratti in corso, anche non relativi ai pagamenti in questione, nonché il diritto al risarcimento degli eventuali danni. Il venditore ha altresì il diritto a decorrere dalla scadenza del pagamento, agli interessi moratori nella misura stabilita in Italia dall'art. 5 del Decreto Legislativo 9 ottobre 2002, n. 231. Il ritardo nei pagamenti dà altresì al venditore il diritto di escludere la garanzia per tutto il periodo durante il quale il ritardo perdura.

Riserva di proprietà
I prodotti consegnati restano di proprietà del venditore sino al momento del completo pagamento del prezzo.

Legge applicabile e foro competente
Tutti i contratti disciplinati dalle presenti condizioni generali sono regolati dalla legge italiana. Per ogni controversia relativa o comunque collegata ai contratti cui si applicano le presenti condizioni generali è esclusivamente competente il foro del venditore; quest'ultimo avrà tuttavia facoltà di agire presso il foro del compratore.

GENERAL CONDITIONS FOR SALE

These general conditions regulate all present and future sales contracts between the parties, subject to any exceptions specifically agreed upon in writing. Any general conditions of the purchaser will not apply to future contractual relations between the parties unless expressly accepted in writing by Palazzani.Eu srl

Formation of the Contract
The purchaser placing the order fully accepts the application of these general terms to the Contract for sale. Seller reserves the right to accept or refuse it. Offers made by Agents, Representatives or auxiliaries of the seller do not bind him until they are confirmed by the seller itself.

Prices
The prices indicated in this price list do not include V.A.T. or any other tax whatsoever. Seller may modify the prices / price list without prior notice.

Patterns
The supplier reserves the right of modifying the patterns and designs without any notice.

Surrender of the goods
Unless agreed to the contrary, the supply of the products is intended ex-factory: transport and insurance are therefore at the charge of the purchaser, this also when it is decided that the delivery or part of it will be taken care of by the seller, in which case the latter will act as the purchaser's agent, it being understood that the transport will be carried out at the expense and risk of the purchaser.
The risks relative to the supply pass to the purchaser, at the latest at the time in which the products leave the seller's plant.

Delivery terms
The delivery limits are agreed approximately in favour of the seller and not binding for him. Any liability of the seller is excluded for damage deriving from anticipated, delayed or non delivery, total or partial.
The purchaser is always held to take delivery of the products, even in the case of partial deliveries and even when the products are consigned before the established delivery date or successively to that date.
The seller shall not be deemed to be in breach of this agreement, or otherwise be liable to the purchaser, by reason of any delay in delivery, to the extent that the delay is due to any Force Majeure, and the time for performance of delivery shall be extended accordingly.

Guarantee
The seller guarantees the compliance of the products supplied; by the term compliance of the products it is meant that they correspond in quality, quantity and type to what was agreed in the contract and that they are without defects that could render them unfit for the use to which they are intended to be put. The guarantee against defects is limited only to product defects due to defects in planning, materials or construction that can be attributed to the seller, and does not apply in the case where the purchaser is unable to prove a correct preservation of the product and where he has modified them without the agreement of the seller. The seller is not liable for defects in product compliance due to the normal wear of those parts which, by nature, are subject to rapid and continuous wear and tear: The guarantee does not apply if the products are submitted to a water pressure higher than 5 Kg/cm2 as suggested by European Specification. Also the guarantee does not apply in case the producer's recommendation are not respected. The guarantee does not cover damages caused by water containing foreign bodies.

Producer's recommendation
It Is recommended to Install a centralized filter, and carry the maintenance In order not to expose the taps and the mixer to the Impurity of the water. It Is recommended the Installation of pressure reducers In cases where the working pressure Is more than 5 Hg/cm2. For the cleaning of the chromium plated surfaces, it is recommended not to use corrosive acids, especially if containing hydrochloric acids. Coatings other than chrome, the cleaning has to be done only with water and a soft cloth

Claims
The purchaser is required to control the compliance of the products and the absence of flaws.
Claims relevant to non-conformities of the goods must be made, on pain of forfeiture, within and not later than fifteen days from the goods arrival at their place of destination. Hidden flaws, defect or non-compliances must be reported immediately after the discovery and in any event, on pain of forfeiture, not later than six months from the delivery date.
Claims must be made by registered letter, addressed to the seller and must describe in detail the flaws or disputed non-compliances. The guarantee is for a limited period of six months from delivery date.

Remedies
In case of faulty products and following to a report by the purchaser, the seller may at his discretion:
a) supply ex-factory to the purchaser products of the same kind and quantity as those that proved not in compliance, on receiving returns for checking. Any replacement carried out promptly by the seller cannot be considered as implicit recognition of defects claimed: said recognition must always be explicit and following control by seller on goods challenged; should the seller, on controlling, find the goods in compliance, he will invoice for those sent in replacement; or
b) issue to the purchaser a credit-note in the amount equal to the value of the defective products.
In both cases the purchaser shall return the faulty products to the seller.

Limit of the seller's liability
Except in the case of fraud or gross negligence on the seller's part, compensation of any damage to the purchaser will not, in any event, be greater than invoice price of the disputed products.

Payments
The payment and every other sum due to the seller, are understood as net at the registered office of the seller.
Any delay or irregularity in the payment gives the seller the right to suspend the supply or to cancel the contract in course, even if they are not relevant to the payments in question, as well as the right to compensation for eventual damages. The seller has also the right – starting from the payment deadline – to interests for delay as per art. 5 of Italian Legislative Decree no. 231 of 9/10/2002. The delays of payment likewise give the seller the right to exclusion from guarantee, for the whole period that the delay may persist.

Retention of Title
The delivered products remain the seller's property until the moment of the complete payment of the price.

Applicable Low and Competent Law-Court
All Contracts ruled by these general conditions are submitted to Italian Law. For any controversy relative to, or connected to the contractual products to which this general conditions apply, the seller's Law-Court has the exclusive competence; the latter, however, will have the opportunity to act also in the purchaser's Law-Court.
